AquaBAC 50

Disinfectant (Concentrated) of Aquaculture (Free Silver) Multi-Use in Medical & Food / Beverage Sector (Free Colour, Fragrance & Taste) Chemical and Microbiological Analysis Water Control

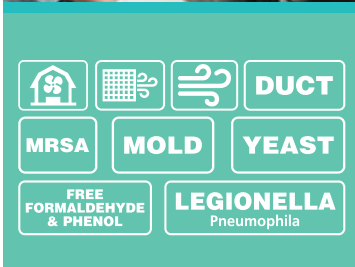

Features: Universal range of Application, Long-Lasting Effect, no Carcinogenic or mutagenic effect, Non-toxic, Free colour, odour and taste, does not change the taste of water & food, effective in water temperatures ranging from 0 - 95°C, it does not form chemical compounds with other chemical elements. AquaBAC 50 is widely used in Aquaculture as a water clarifier & a disinfectant. It is very effective in recirculation facilities. AquaBAC 50 disinfection is very Safe & Effective method for removing the risk of most Parasites, Bacteria, Viruses, Yeasts and Fungies from the water. AquaBAC 50 is Active Against many harmful types of mold, spores, mildew, and bacteria including Gram Positive/Negative, Legionnaires, Salmonella, Escherichia Coli, Listeria, Staphylococcus, Klebsiella, Clostridium Botulinum, Bacillus Cereus, Bacillus Anthracis, Listeria, Shigella, MRSA..etc.), Viruses, Sporogenesis, HCV, Influenza A, Pseudorabies Viruses. There are no toxic residuals. Proper Disinfection with highly stable.

ClimaBAC A/C

Air Condition A/C, Ventilation & Atmosphere Cleaning and Disinfecting Concentrated & Spray RFU (Free Fragrance / Fragrance)

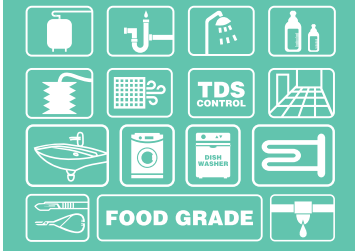

Features: Clima A/C Spray Disinfectant & Cleaner for A/C: Effective Cleaner & Disinfectant with its special developed, strong formulation. It purifies your A/C Filters and Atmosphere from Bacteria, Yeasts & Molds. Its killing efficiency on bacteria, yeasts & molds is approved by Ege University Bioengineering Department's Antimicrobial Efficiency Test Report. Its Killing efficiency on Legionella Pneumophila, is the bacteria cause "A/C Disease" on human lungs. It provides Clean & Safe working to your A/C. Spraying according to case. It kills microorganisms in %99 ratio. It removes bad odour which is caused by microorganisms in A/C. Provides Airness & hygiene with fresh & clean scent. Effective & reliable disinfectant against microorganism which are formed in the air conditioning filters of the Houses, Rooms, Offices & Cars.

Descaler A3 & A3 Plus

Acidic Surface & Equipment / Tools Cleaner Liquid Lime & Rust Remover, Multi-Use in Medical & Food Veterinary Sector (Free Colour & Fragrance)

Features: Phosphoric Acid based Lime & Rust Remover. Cleans Minerals Rests of walls, Floors & Metal Equipment Surfaces. Cleans Lime, Rust & doesn't damage Epoxy, PVC & natural Stone, Floor, Surfaces, Equipments and Instruments. It doesn't corrode the surfaces. It doesn't damage Stainless Steel, Glass, Plastic because of inhibitors (It has a very High Compatibility). Suitable dosage systems. Can be used with all water types, Rinsing Easily without Traces after using. Save your time for Cleaning. Economic, dilute by water according to case. Safe, no toxic, Food Grade & Environment Friendly.

Specification Standards

ISO 9001
ISO 14001

Cleaner C30 & Cleaner C30 Plus

General Cleaner & Disinfectant (Concentrate) For Veterinary & Food / Medical Sector (Free Soap, Colour & Fragrance)

Features: Because of including Nonionic Active Agents, it is compatible with disinfectants. Environment Friendly. Concentrated Liquid for Cleaning and Disinfection Surfaces (Walls, Ceiling, Floors,...) of Veterinary & Food, Medical Sector. Designed especially for Remove Blood, Dirts and Solid Wastes from the Surface. It has bactericidal (including Gram Positive & Negative Bacteria, Methicilin Resistant Bacteria, Camphylobacteria & Mycobacterium), Fungicidal (Including Yeast & Molds), TBC, & Virucidal (including Polio, Papova, Adeno, Rota, Vaccina & Porvo) effects. Can be used with all water types, without rinsing & traces after using. Economic, you can diluted between 100-400 times.

Disinfectant D30 & D30 Plus

Disinfectant (Concentrated) Multi - Uses For Surface & Atmosphere D30 & Disinfectant (Concentrated) Glutaraldehyde Based D30 Plus in Veterinary & Food / Medical Sector

Features: Concentrated product for veterinary and medical sector supplies disinfection of surfaces (walls, ceiling, floors, atmosphere and equipments). It doesn't include formaldehyde and detergent, effective on all kind of contaminations. Cause the specific and selective formula, it is effective on bacteria including gram positive and gram negative bacterium's; Staphylococcus Aereus, Salmonella Typhi, E.Coli, Compylobacter, Bacillus Cerus, Pseudomonas, Aerginosa, Mycoplasme SPP, etc. Yeasts, rods, fungi; Candida Albicans, Tuberculosis Bacteriums; Spores, Parasites as Coccidia and all kind of Viruses; Gumboro, Newcastle Disease, Avia Influenza, Chicken Anemia, Equine Influenza, Mark's Disease, Adeno, Polio, Rota, Simia, Parvo virus, Foot & Mouth Disease. Different range of application, long-lasting effect, Non-Toxic, Safe For User, Environment Friendly.

IODINE 2.8

Veterinerian Iodine Disinfection For Multi - Use Do Not Use in Presence of Animals

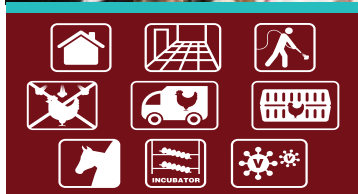

Features: It has, can destroy all Viruses Gumboro Disease, Parasites as coccidia, Newcastle-isease, Bronchite, gram (-) and gram (+) bacteries; Pseudomonas Aeruginosa, Salmonella Entritidis, Proteus Vulgaris, E.Coli, Staphylacoccus Aureus, fungi; Aspergillus Niger, Penicillium Chrysogenum, Alternaria Solani, Mucor Racemosis, yeasts; Candida Albicans, Saccharomyces Cerevsiae and viruses, also active against foot and mouth disease. It effects in long period because the presence of phosphoric acid by high percentage (30%). IODINE 2.8 must not be used on animals which sensitive to iodine. It must not be used on wide and high degrees burn and animals which have insuffucient renal fuctions. Can be used with all water types, Non-Toxic and Environment Friendly.

PHENOLEX 400

Phenol Based Disinfectant (Concentrated) Multi - Use in Veterinary Sector / Do Not Use in Presence of Animals

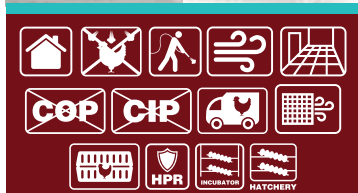

Features: PHENOLEX is effective for Gram (-) and Gram (+) bacteria, their sports, fungi, yeasts and viruses PHENOLEX is a low toxicity Antiseptic / Disinfectant Active. PHENOLEX is effective against a wide range of microorganisms including gram positive and gram negative bacteria, fungi, yeasts and viruses. (Mxyovirus group and Para influenza group) Clorofoncs are effective as other bacteri-ocits. Protein in the cell membranes of bacteria and viruses are destroyed. Bacterial cells are completely collapsed with disclosure of specific bases such as purune. PHENOLEX use at least 10 minutes after the impact shows. PHENOLEX has a broad spectrum of activity which is demonstrated by the MIC data from left.

AquaBAC 50 & AquaBAC 50 (Jocker)

Disinfectant (Concentrated) For Surfaces & Atmosphere Multi-Uses in Veterinary & Medical Sector (Free Silver) Do Not Use in Presence of Animals

Features: Universal range of application, long-lasting effect, no carcinogenic or mutagenic effect, non-toxic. Does not form chemical compounds with other chemical elements. Effective on bacteria including gram positive and gram negative bacterium's; Staphylococcus Aereus, Salmonella Typhi, E.Coli, Compylobacter, Bacillus Cerus, Pseudomonas, Aerginosa, Mycoplasme SPP, etc. Yeasts, rods, fungi; Candida Albicans, Tuberculosis Bacteriums; Spores, Parasites as Coccidia and all kind of Viruses; Gumboro, Newcastle Disease, Avia Influenza, Chicken Anemia, Equine Influenza, Mark's Disease, Adeno, Polio, Rota, Simia, Parvo Virus, Foot & Mouth Disease.

Cleaner Foam B30

Cleaner & Disinfectant Concentrated Bubbly Oil & Fat Remover For Food / Veterinary & Medical Sector (Free Colour & Fragrance)

Features: Concentrated Liquid for Cleaning and Disinfecting of equipment and all surface. This Selective & Specific Formula. Due to the High Pure Alkaline, Non-Ionic Active Agents and another Specific Ingredient Formula give to this product Advantage for Quickly Remove undesirable Oils / Grease, Animal and Vegetable Fats, Blood, Dirt And Solid Wastes from the surface and conveyor. Especially very useful in the Industrial Kitchen of Food & Medical sectors. It is Active and effective against Microbial, Bacteria as (Salmonella, Staphylococcus Aureus.. etc.) Fungie, Yeasts because of Development and Specific Formula, Supply saving from place and energy. Does not damage Stainless Steel, Glass, Plastic surfaces because of Inhibitors (it has very High Compatibility). Supply saving from place and energy. Does not damage Stainless Steel, Glass, Plastic surfaces because of Inhibitors (it has very High Compatibility). It is compatible with Disinfectants because of including Nonionic Active Agents. Can be used with all water types. Safe, No toxic, Grade Food & Medical and Environment Friendly.

RFU Septo D & D Plus

RFU Disinfectant For Surfaces In Medical & Food Sector / Multi - Alcohol Based (Free Colour & Fragrance)

Features: With Effect of Quick Disinfectant (30 second), kills Viruses & Microorganisms. Used as a Quick Disinfectant on Surfaces which in touch with products which have a infection risk of microorganisms. Volatile, Safe, No Toxic, Grade Food, Environment Friendly especially very useful at Veterinary & Food / Medical Sector. It is compatible with Most Surfaces Types (Glass, Wood, Ceramic, Silicon, & Stainless Steel Material.) because of development formulation. Free colors & fragrance, Without Traces & Accumulation after using. It is active against Gram Positive & Gram Negative Bacterium, Camphylobacteria & Mycobacterium Terrae, Avium), Fungicidal (Including Yeast & Molds) & all kind of Virucidal (including HBV, HCV, HIV, BVDV, Polio, Papova, Adeno, Rota, Vaccina & Porvo Viruses) effects. Also Effective against Salmonella Typhi, Bacillus Cereus, Pseudomonas Aeruginosa, Candida Albicans, Esherichia Coli, Staphylococcus Auerus, Apergillus Niger, Trichophyton Mentagrophytes. Big effective Activities Microbiological Again Differents diseases cause have in composition another group like Guanidine & Ammonium Compounds.

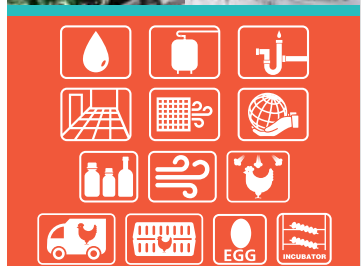

Cleaner A4 - CIP Acidic Cleaner For CIP (Concentrated) In Food / Beverage Industry & Veterinary Sector (Nitric & Phosphoric Acid Based)

Features: It easily dissolves deposits resulted from the water hardness and galactites, protein residues and food leftovers in the closed systems. Its foam is controlable. It prevents foam forming in the closed systems. It dissolves lime and mineral deposits resulted from the water hardness of heated and nonheated closed systems equipments. It does not damage to stainless steel, glass, plastic, and rubber surfaces. Safe, no toxic, grade food, without traces after using, and Environment Friendly. It is easy to use & rinse. additional chemicals are not required to be used during rising. It is able to solve rust. It is economical (diluted from 200 to 400) and adaptable to dosage systems.

Cleaner B4 - CIP Alkaline Cleaner For CIP (Concentrated) In Food / Beverage Industry & Veterinary Sector (Sodium & Potassium Hydroxide Based)

Features: It is used in the Alkaline Cleaning of the heated and non-heated Closed Systems Equipments. It is an ideal Cleaner in the Milk Industry for the Contamination Cleaning in the Systems (Evaporator, Pasteurizer, and Sterilizer) in which the hot Milk passes through. It does not cause to stains or traces. It is used in safe in Beer, Beverages, and Food / Veterinary & Medical Industries. It is used in the Cleaning of Retention and Agitation Tanks along with the Alkaline Cleaning of other Equipments. It is economical and adaptable to dosing. It can decompose up to 80% in nature.

Aqua BAC 50

Disinfectant (Concentrated) of Aquaculture (Free Silver) Multi-Use in Veterinary, Food & Beverage Medical Sector (Free Colour, Fragrance & Taste)

Features: Universal range of Application, Long-Lasting Effect, no Carcinogenic or mutagenic effect, Non-toxic, Free colour, odour and tast, does not change the taste of water & food, effective in water temperatures ranging from 0 - 95°C, it does not form chemical compounds with other chemical elements. It is widely used in Aquaculture as a water clarifier & a disinfectant. It is very effective in recirculation facilities. Its disinfection is very Safe & Effective method for removing the risk of most Parasites, Bacteria, Viruses, Yeasts and Fungies from the water. It is active against many harmful types of mold, spores, mildew, and bacteria including Gram Positive/Negative, Legionnaires, Salmonella SPP, Pasteurella SPP, Escherichia Coli, Listeria, Staphylococcus, Klebsiella, Clostridium Botulinum, Bacillus Cereus, Bacillus Anthracis, Listeria, Shigella, MRSA..etc.), for Fungal; Aspergilla SPP, for Parasitic; Aimeria SPP, Viruses, Sporogenesis, Influenza A, Pseudorabies Viruses, Paramixo Virus (ND, T.R.T.), Gumboro Disease, Herpes Virus (Marks, ILT), Adeno Virus (EDS, i.B.hepatitis), Parvo Virus, Bovine Diarrhea Virus. For fish; Irido Virus, Herpes Virus Salmonis, Channel Cat Fish Virus and Fish Pox. Mycotic; Saprolegnia, Branchionycosis Phoma, Candida. There are no toxic residuals. Proper Disinfection with highly stable.

FIRST QUALITY CERTIFICATION

Cleaner & Disinfectant **BodyScrub**

Cleaner & Disinfectant for Whole Body Wash (Before / After Work) For Vet & Technical Staff (Free Soap & Alkaline, Colour & Fragrance)

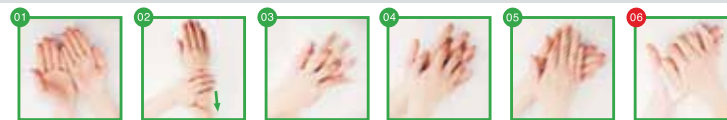

Features: It is liquid cleaner and disinfectant for body. Does not irritate. Moisturizing and suitable pH level for body. It is anti-microbial. Safe, because free phenol compounds, colour and fragrance. It is Effective against Gram Positive & Negative Bacteriums, Yeasts, Tuberculosis, Fungi & All Kind of Viruses (HBV, HIV, HCV, Rota, Vaccinia, BVDV, SARS, Noro, Adeno), (Salmonella Typhi, Bacillus Cereus, Staphylococcus, Pseudomonas Aeruginosa, Candida Albicans, Escherichia Coli.) as well as against Influenza A (H1N1).

Cleaner & Disinfectant **HandFoam & Liquid**

Cleaner & Disinfectant For Vet & Technical Staff Hand

Features: Economic (5 Times more Economic), with normal soap you will be able to wash your hands 300 times with 1000ml. But with this Cleaner Hand FOAM you will be able to wash your hands 1500 Times. Doesn't irritate to hands with moisturizing & suitable pH level for skin. It is Anti-Microbial and compatible with Disinfectants because its including Nonionic Active Agents. Safe, because Free Phenol Compounds, Colour and Fragrance / Environment Friendly. Protects and Moisturizes your hands, because of development formulation. No present Effects like Allergy, Eczema. It is Effective against Gram Positive & Negative Bacteriums, Yeasts, Tuberculosis, Fungi & All Kind of Viruses (HBV, HIV, HCV, Rota, Vaccinia, BVDV, SARS, Noro, Adeno).

Quick Disinfectant **AlcoHand & Dr. HygieneFoam**

Quick Hand Disinfectant for Vet & Technical Staff (Multi-Alcohol Based / Free Colour & Fragrance)

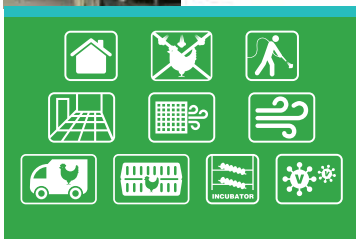

Features: It's a Hand Disinfectant Multi - Alcohol Based which supplies Disinfection on Veterinary / Medical & Food Sectors, Clinics, Emergencies. Beside Disinfection of hands, protects & moisturizes your hands. No present Effects like Allergy, Eczema due to no containing Perfume. It provides Disinfection Stable & Durable During the Surgery. Safe, Free Phenol Compounds, Colors and Environment Friendly. Skin Regenerative, Moisturizer & Protective. Provides High & Quick disinfection due to Specific and Enantio / Diastro Selective Formula (Multi Alcohol Based). It is Effective against Gram Positive & Negative Bacteriums, Yeasts, Tuberculosis, Fungi & All Kind of Viruses (HBV, HIV, HCV, Rota, Vaccinia, BVDV, SARS, Noro, Adeno), (Salmonella Typhi, Bacillus Cereus, Staphylococcus, Pseudomonas Aeruginosa, Candida Albicans, Escherichia Coli.) as well as against Influenza A (H1N1).

Disinfectant **D30 Plus**

Disinfectant (Concentrate) Glutaraldehyde Based For Surface & Atmosphere Multi - Use In Veterinary & Medical Sector (Free Formaldehyde & Phenol)

Features: Concentrated product for veterinary and medical sector supplies disinfection of surfaces (walls, ceiling, floors, atmosphere and equipments). It doesn't include formaldehyde and detergent, effective on all kind of contaminations. Cause the specific and selective formula, it is effective on bacteria including gram positive and gram negative bacterium's; Staphylococcus Aereus, Salmonella Typhi, E.Coli, Compylobacter, Bacillus Cerus, Pseudomonas, Aeriginosa, Mycoplasma SPP, etc. Yeasts, rods, fungi; Candida Albicans, Tuberculosis Bacteriums; Spores, Parasites as Coccidia and all kind of Viruses; Gumboro, Newcastle Disease, Avia Influenza, Chicken Anemia, Equine Influenza, Mark's Disease, Adeno, Polio, Rota, Simia, Parvo virus, Foot & Mouth Disease.
